Dear Amon:-

Received your very kind and most highly appreciated letter a few days ago. Certainly was very much surprised to get such a long and big hearted letter from my good little boy of so long ago and the happenings you mentioned had not entered my mind for many a day, but as I read them every thing came back to me as plain as when they happened and Harry and I both had a hearty laugh over them.

Amon, you want know until you get old how it cheers up old people to be remembers by those they have known and loved in younger days.

I certainly will keep your letter as long as I live, and as to the present, no one could appreciate it more, but my dear boy ( as you will always be to me) don't be to extravagant in your great kindness. Remember you are only in the prime of life, while I will soon pass away from this world of pleasures and grief, happiness and sorrows as most of us have to meet, but hoping your trials may be few and pleasures many, I will ever remain as of old,

Your kind and loving friend,

( Signed ) Mrs. M. E. Bedford.
