Dear Ame:

If ever any man wrote any telegram more typical of himself than the telegram you wrote was typical of you, that man does not live today.

Of all the telegrams received which I read before Swasey's entire advertising staff I think yours was the one they liked the best and I am sure it pleased Ed as much, if not more, than any other.

I knew you would answer my request and I knew you would wire just as you did. If I were a bit cleverer, I could have written the wire and signed your name and had it almost the duplicate of what you said because your personality is so distinct.

With warmest regards and best wishes, and many thanks, I am,

Faithfully yours,

J. Mitchel Thorsen.
