

DROPS * ADDS * CHANGES

A student may still drop a course, but February 10 is the last date for an add or a change in course.

MAKE SURE EVERY STUDENT IN YOUR CLASS IS ENROLLED

The preliminary class rolls will be a little late on account of the electric power being cut off at the time these were due to be run. These preliminary rolls should show all students in your classes up to the drops and adds, and changes. From this process you will receive individual cards on each student. If in doubt request the student to show his little pink card. This is very important. No teacher is to keep in class a student who is not officially registered for that particular course.

ABSENCES

Please remember to keep a record of each absence. A report on these will be called for on the final roll.

ORCHIDS AND ONIONS DEPARTMENT

ORCHIDS to those obliging teachers who turned their class rolls in on time and in first class order. Their cooperation was appreciated to the fullest extent.

ONIONS to those teachers who failed to read their instructions that were attached to the final grade rolls. They added to the confusion already caused by registration by failing to cooperate in this all-important matter. Registration and final grade runs were held up while final grades were cleared.
