Telegr. Address: Shepheards. Cairo

Cairo 4/20/25

Dear Amos:

Nothing ever happens here except about fights and sleep so I'm absolutely fed up and it isn't going to make me mad at all to watch the coast fade away. We're going to land in Naples and go straight to Rome where I may go to a boarding school and study a little of everything. Tell Mervin that here's letter was one of the two we have received. Write to Paris now. I wish the Casperia was going to land in New York with me on board but I guess it won't. I have to pack so I'll see you later - Love - Emily
