Mr. Amon G. Carter
 Fort Worth Star Telegram
 Fort Worth, Texas

My dear Mr. Carter:

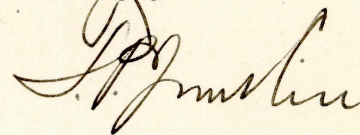

May be you have forgotten your conference with Mr. Frank McNeny and the writer several months ago in regard to the modification of the Robertson Insurance Law, but I certainly have not. You may recall our offer on behalf of Dallas to pay Fort Worth \$1,000,000 in cash for your citizenship!

This letter is written on an entirely different matter, and because of your responsibility, with President T. W. Horn, in the selection of an athletic director for the Texas School of Technology at Lubbock. I noticed in the paper the other day that the athletic director had not been chosen. As you may know, having lived for many years in West Texas, I am very partial to that section. Also, having for many years been associated with A & M College of Texas as Professor of Mathematics and afterwards as President of Daniel Baker College at Brownwood, I am intensely interested in education, and believe you will agree with me that in our present day and generation, the proper supervision and direction of athletics is of tremendous importance.

I do not know at all whether or not you can secure the services of Mr. E. Y. Freeland at present with Southern Methodist University here, but if you can, you will get a Christian gentleman in every sense of the word and one of the best coaches it has ever been my privilege to come in contact with. I got him from Vanderbilt University while I was President of Daniel Baker College and he has steadily grown ever since in the estimation of the Universities and Colleges in Texas. If he is available, allow me to suggest that you, by all means, secure his services. He is a builder of both body and character and one in whom every confidence can be placed.

I trust you will accept the above in the spirit in which it is written and be assured that I have only in view the all important matter of athletics in connection with our educational system.

Sincerely and cordially yours

TPJ:LE
