Mr. Oscar E. Monnig,
1010 Morningside Drive,
Fort Worth 4,
Texas,

Dear Sir, -

I have a very fine specimen of meteorite for sale,
one that has been in my private collection since I bought it in
1937.

This is a complete and etched section of Carlton, Hamilton Co.,
Texas, a siderite of the fine octahedrite class, found in 1887. It
is in perfect condition, weighs 2297 grams, and measures 9 1/4 inches
long by 5 3/4 inches across and approximately 1/2 inch thick.

I am asking \$400.00 for this superb slab, shipping charges pre-
paid.

If you would be interested in buying this specimen, word from
you would be appreciated.

Sincerely yours,

E. M. Gunnell
