POST OFFICE BOX 1171  
WINSLOW, ARIZONA

Dear Morrig:

For some reason your letter did not reach us until the 24<sup>th</sup> and that day found us taking our "day off" without time to go over mail. Then yesterday we could not get to town.

We do appreciate your thinking of the note we sent you on the Tennessee specimen. But we have been able to get no more information than that sent you and that which your letter contains. It may be impossible to contact the man even when you are on the ground. However, as you know, finders of specimens sometimes behave in unaccountable ways.

If you find him and the specimen you need not feel seriously obligated to us, just any thing that seems fair will be appreciated here.

I hope you have a good trip,

Cordially

H.H.N.
