

1951, August 20.

Mr. H. H. Mininger,
P. O. Box 1171,
Winslow, Arizona.

Dear Mr. Mininger:

Back in a letter of May 22, 1950, you kindly gave me the name and address of Mr. Alvin C. Harmon, P. O. Box 327, Clinton, Tennessee, supposedly in possession of a 17 lb. iron of which some oxide slivers had been sent to you. You said he had not answered your letter of Oct. 21, 1949, and I had offered to try to do something thru some Tennessee friends.

Partly thru my own neglect and partly because of the illness and subsequent death of one of the Tennessee contacts I mentioned, I must confess I did nothing for you in this matter.

However, it is probable that I shall go to see the annular eclipse of the sun in North Carolina on Sept. 1, and I may go by car, leaving here Aug. 27 or 28.

If this matter is still unsettled and you think I can be of help to you by going to Clinton and seeing this man, advise me and I'll do what I can. If you have any later news on the topic or have heard from him since, let me have that, too.

He might be hard to find thru just a box address. If you have a street address, let me know.

Sincerely,

only Harmon phone listed 9-1-51
Mrs M. E. Harmon
