

2305 W. Shandon
Midland, Texas
Nov. 28, 1963

Dear Mr. Manning,

This will be a short note to send the enclosed photo of the Cup and Saucer. I have been in El Paso for some time doing field work and have finally returned to Midland.

I have another photo of the Saucer taken from the air and will have a copy made for you as soon as possible. It will probably show the shape of the feature more than the enclosed view. The one attached was taken from the hill we climbed prior to going over and walking around the Saucer.

I have not had an opportunity to contact Mr. Schultz as yet but will try to do so this weekend or next week. I hope that I may be able to help you in obtaining at least part of the meteorite.

I enjoyed the day in the field with you and your friends. I wish that I had been able to remain over night and visit with you. As it was I had to circumnavigate a bad thunderstorm west of Big Spring and was happy that my ship would not be out in it. I doubt that it would have been in very could condition after the storms passage.

I hope we can visit again in the future. If you are in this vicinity please ~~stop~~ stop with us. I will check with Mr. Schultz and hope I have good new for you next week.

Sincerely
Sam Bishop
