Dear Oscar -

enjoyed our trip  
very much - I think  
that the little structures  
may be due to extra terrestrial  
forces - It's safest to  
select an origin couched in  
the greatest amount of mystery.

Would you call Harry M.  
and tell him that the Boss  
(wife) said that she wants  
to keep her station-wagon  
monster on account it is  
nice for the kid-monsters -  
Best wishes - Bill
