Dear Mr. Carter:

I want to ask you again if you will send the small piece of the meteorite to me for \$7.50. This is really a very good price for it, and I felt that when I was by there one evening last fall and offered you and Mr. Gressett this, you were really inclined to accept but just didn't do so because I was in too big a hurry.

I can clean this off and dry it out pretty well by chemical means, and then polish one side of it better and study this piece instead of having to go to the expense of cutting a similar piece off the main mass.

Please consider this and I believe you will conclude to put this fragment in a small carton and mail it to me. I will reimburse you for the postage, too. I enclose an envelope so you can let me know.

With best regards, I am

Yours sincerely,

Oscar E. Monnig

(P. S. I had hoped to be by that way and talk to you about this, but I can't figure on that because of the tire situation. That's why I'm asking you to just deal with me by mail. I am sure you know I'm reliable.)

Dear Mr. Morning,

Dear Mr. Carpenter:

In regards to meteorite we still want
 \$10.00 for it. our mail carrier has offered
 us \$7.50 for it but as you have the other
 part we had rather you have this
 other piece provided you want to give
 \$10.00 for it.
 If so we will mail it to you by return
 mail.

With best regards, I am

Yours sincerely,

your respectfully
 Carl H. Gressett
