1978 7-26

Dear Mr. Conklin,

I was gone a week on a short vacation in Santa Fe,
and found your package on my return.

The meteorite slice is in good shape.

I did not find any label with the specimen
but wish you would send me one (or one of your labels
if you wish) identifying it as *Abrostella Peak* and giving the
weight, even if approximate.

A label like this is desirable as a sort of
"pedigree". A stamped envelope is enclosed - thanks
for your trouble.

Oscar E. Monnig
