in morning

Dear Mr. Schulz:

Not having heard from you about the meteorite you have, in response to a letter I wrote you about a year ago, I asked a friend of mine at Midland, Mr. Sam Bishop, to see you about it.

I believe he contacted you last December, and he told me he thought it would be best if I came by to see you sometime when I got to Midland. I have not had an opportunity to be there, but feel sure I shall this fall, maybe in October.

All I want to ask of you now is that you let me know if I could talk to you and see the meteorite when I come to Midland, and I would of course try to give you advance notice. I hope you will reply and give me your phone number. Also let me know if I have your address right. Many thanks.

Yours sincerely,
