Dear Prof:

This may reach you before Bob gets back. I am getting mother to mail this in F W write. Bob went back to Crescent today but I could not go again today. The kind of mine yesterday was one of those thrills which are one of the thrills of a lifetime. I classified it with the Sun. Fireball of '33, The Aurora of 1928 and one or two others real high spots of my life. Bob will give you the details-- as they should be told, I am sure. Will try to write a little soon but as Bob can also tell you I am pretty busy. regards
Burch.
