first

Ans 9/11/36

Hunnell, Kans.,

August 20, 1936.

Mr. Robert Brown,
Burleson, Texas,

Dear Sir:

I read in
the Blackwell paper
that you were going
to search for the
meteor which streaked
across northern Okla.
last Monday Evening.

I live at Hunnwell,
Kansas, about twenty-
one miles northwest
of Blackwell, and I
happened to see the
meteor. It appeared
to fall south of
Hunnwell.

Come up and I
will help you search
for it.

Very truly,
Billy Ellis.
