

1936-10-22

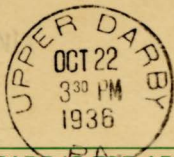

Dear Mr. Manning:

Through Weather Bureau I have a report of a very brilliant fireball seen from Edinburg, Texas, at 12:55 am (EST!) on Sept. 2. Have you others and do you want me to send this? I told Mrs. Will to mail you a large batch on the other of which we have been writing, and that came in the other day. Hope you are now entirely well.

Sincerely yours,

Charles Olivier
