

FLOWER ASTRONOMICAL  
OBSERVATORY

Headquarters American  
Meteor Society  
Charles P. Olivier  
*Director*

Upper Darby, Pa.,  
1936 October 27.

Mr. Oscar E. Monnig,  
312 W. Leuda St.,  
Ft. Worth, Texas.

Dear Mr. Monnig:

We have recently received from Mr. Wahlgren, at Oklahoma City, a large envelope of reports on the fireball of August 17, 1936. They arrived just as Dr. Olivier was leaving town. He asked me to write to you about them, and find out whether you would like to have them forwarded to you. In your letter of September 17 you stated that Mr. Wahlgren was cooperating with you on this object, and we suspect that you may have already received copies of the reports. If you have not, we should be glad to send them to you promptly.

The envelope as received from Mr. Wahlgren contains an Oklahoma map with points of observation marked upon it (a hectograph copy or something like that), and letters from the following: J. S. Hudnall, A. M. McMahan, M. M. Van Sandt, W. B. Gernert, A. M. Foss, Bennett Bassori (sp?), Charles Lincoln White, Mrs. John Hunter, Mrs. L. W. Mahler, Mrs. B. F. Hall, Miss Ruth Cochran, Erwin Potts, Miss Mary A. Boland, Mrs. Cassandra Washam, A. S. Foy, D. A. Shaffer, Harold D. Cooper, Mrs. G. E. Hinton, Willis Wallare, Mr. and Mrs. Earl Butts, L. E. Bradshaw, Mrs. R. H. Smith, Robert W. Eikleberry, Mr. Alma Stalcup.

Please let us know if you would like to have them forwarded to you.

Very truly yours,

*Doris M. Wills*  
(Mrs.) Doris M. Wills,  
Observatory Assistant.
