

June 15, 1953

TEXAS CHRISTIAN UNIVERSITY
FORT WORTH, TEXAS

Dear Friend and Colleague:

The present inventory of the role of T. C. U. in world affairs is an enterprise surely meriting the cooperation of all of us. It may well contribute to our better philosophical orientation and educational progress, but its importance real or potential needs no elaboration here. It is also clear that replies to the questionnaire by our staff is an essential part of the survey.

May I therefore urge that you make a return on your questionnaire (if you have not already done so) in the near future -- let us say, not later than June 15th.

Cordially yours,

M. E. Sadler
