VOL. XXXII April 25, 1956 No. 31

VITAL STATISTICS ON NEW ART HEAD

SCIENCE OPEN HOUSE FRIDAY NIGHT

The annual "Open House" of our Science Division will be held Friday night from 7:30 to 10 o'clock. Everybody's cordially invited, not only to come but to bring friends and others interested.

Both the Science Building and Sterling House will be open to visitors. There'll be light refreshments, too, to sustain folks awed by the wonders on exhibit,

Harris College, biology-geology, physics, chemistry and home economics are taking part. There will be more than 20 demonstrations and exhibits, including such diverse things as cancer cells, snakes and lizards of our area, measuring calories in food, a 2,000,000 volt electric arc and other things.

WANTED: ADDRESSES OF EX-STUDENTS

Mr. Hartwell Ramsey, the hard-going director of Ex-Student Affairs, has an idea that faculty and staff members can greatly aid his office by being on the lookout for addresses of former students. Seems our exes move about a lot and one of Hartwell's most time-consuming jobs is trying to keep his mailing list up-to-date. For instance, he's had over 1,900 changes and corrections since Jan. 1.

Says Brother Ramsey: "It occurs to me that our faculty could greatly assist if, when they hear from former students, they would send the envelope containing the return address to us. Just drop it in the inter-office mail."

Makes sense and we hope that all faculty and staff folks will be alert to render this help. It shorely will be appreciated.

OooooooooOooooooooO

LIBBY STILL WANTS DATES

Miss Elizabeth Youngblood is still looking for dates. Not the social kind--necessarily--but those of major campus events for the 1956-1957 school year.

As you know, the big date book in Libby's office is now the "official calendar" for the university and the more entries she can make therein now, the less chance of conflicts next year. If you have any knowledge of a major event coming up, please inform Libby now. Thanks.

VITAL STATISTICS ON NEW ART HEAD

Karl Richards, newly named head of the art department (effective next September) is 36 years old, unmarried and is due to receive his Ph. D. from Ohio State University this June.

OTTO NIELSEN has also been affield speaking to students. Took part in a program He is a native of Youngstown, Ohio, holds a diploma from the Cleveland Institute of Art, his B.S. in Education from Western Reserve and his M. A. in Fine Arts from the University of Iowa. He's held a number of teaching jobs and currently is assistant professor of art at Bowling Green State University (on leave for doctoral work)

He has exhibited widely and three of his works are included in a show that will tour Europe, Near and Far East and Latin America. He collaborated in the book "Arts & Crafts for Elementary Teachers" published by Brown & Co. in 1954. He has a new book, not yet published, on the meaning of non-descriptive art.

"I certainly am looking forward to a long and pleasant association with TCU," he writes.

MORE CIVIC CLUBS TO VISIT

So far, the University Area Kiwanis, the Southeast Side Lions, and the downtown Civitan Club have accepted the university's invitation to have lunch and visit the campus. One and all seemed impressed with our buildings, facilities and work.

Still to come: May 1, Downtown Lions Club; May 8, East Side Kiwanis; May 11, Downtown Sertoma Club; May 24, Downtown Kiwanis Club. Others have indicated interest.

Ooooooooooooooooooooo

ROUND AND ABOUT THE CAMPUS

Terry Clark, 12-year-old son of Mr. and Mrs. POSS CLARK, had an emergency appendectomy April 17. Poss reports he's doing fine.

NOEL KEITH was main speaker at the Mississippi State Convention of Christian Churches in Jackson last weekend. Mrs. Keith, who underwent a disc operation last fall, has been back in the hospital. At last report there had been no further surgery, but her back was in a cast. Here's hoping Mrs. Beulah Irene makes steady progress.

Excused Absences (continued)

Round and About the Campus (continued)

T. F. RICHARDSON is still busy visiting with prospective students. Was in Tyler and other East Texas points last weekend.

OTTO NIELSEN has also been afield speaking to students. Took part in a program for seniors of 32 high schools in Texarkana area last weekend.

An article by ALLAN MacLAINE on medieval Scottish literature has been accepted for publication in the "Journal of English and Germanic Philology" published by the University of Illinois. It is entitled "Christis Kirk on the Grene and Sir David Lindsay's Satyre of the Thrie Estaits." Congratulations, Allan.

Mrs. Florence Fallis Manthei sends a card of thanks to the faculty for the flowers and expressions of concern over the death of her father.

BEAR WOLF caught more underwater brush than fish on an expedition to Lake Whitney last weekend. Sympathizing and catching even fewer fish was A. Melton.

JIM SOWELL, the development man, has really been flitting about the country. Was in Washington State and New York recently.

Congrats to Mr. ELMER BROWN, the eminent trainer, on being selected to work with the U. S. Olympic team in Australia next fall. Elmer will miss the last three Frog football games but says, over protests by Mr. ABE MARTIN: "I'll be back for the Bowl game."

E. T. CORNELIUS has been doing a swell job as leader of worship in our Tuesday chapel meetings of late. And the Chapel choir, under GENTRY SHELTON, is something to hear. More and more faculty folks are finding the Tuesday morning break for chapel really stimulating.

EXCUSED ABSENCES

The following students edited the Cleburne Times-Review on Tuesday, April 17, 1956. Please permit them to make up any class work missed.

Alice Buford	Linda Lewis
Bob Clemmer	Bruce Neal
Lois Galloway	George Smith
Jim Hendricks	Jo Alice Wolfe
Earl Lee	

Excused Absences (continued)

The following students were or will be absent from classes on the dates indicated below, in order to receive physical examinations required by the Army ROTC curriculum. It is requested that they be permitted to make up any work missed:

7:00 to 12:00 Tuesday, April 24:

Baker, Harlan H.	Hyde, George F.	Moore, Jeroma A. II
Campbell, Donald L.	Jary, Roland S.	Muir, John T. Jr.
Carter, Cecil C.	Lands, Larry G.	Muse, Jerry L.
DePee, George W.	Miller, Kenneth L.	Stanley, Albert A.
Fechner, Ruben F. Jr.	Moore, James A.	Winter, Millard D.

7:00 to 12:00 Friday, April 27:

Ball, Arthur C.	Dickerson, John W.	Lindsey, Lowell L.
Brezik, James F.	Gilliland, John D.	Perkins, Leslie F.
Cole, Bobby C.	Graham, James M.	Smith, Duane N.
Coleman, Ronald R.	Holland, James E.	Smith, Larry P.
Conrad, David A.	Howard, Kenneth W.	Smith, Roger D.
	Lindsey, Jimmy R.	

Carl Eddie Rose was absent from his 8:00 A. M. class on April 10 and absent from his 9:30 a.m. class on April 17, in connection with his duties as freshman baseball coach.

Jim is a graduate of the U. of Texas (BBA in Advertising) and has been with the Santa Fe for the last two years. An army veteran, he served 16 months in Japan. Although he has a full 26 years, you'll swear he's only 18 or 19 and maybe an entering freshman.

With his training and experience, he's a top hand with promotional pieces and should help us all in the area of getting needed materials through the printers. Incidentally, he's a pianist and composer, holds a card in the American Federation of Musicians. Jim is married and has a 10-months-old daughter.

All those with printing and promotional problems are invited to make young Jim's acquaintance after he gets settled.

ooooooooooooooooo

SCIENCE OPEN HOUSE DRAWS CROWD

All divisions of Science can take a deep bow. Their "Open House" last Friday night was a honey and hundreds of folks, including many prospective students from high schools, spent pleasant hours looking at the sights.

Leo Hendricks and Iva Bramblett were co-chairmen and did a really swell job.
