Hello Tim,

I finally caught up with Brian and asked him about Cedar and Bluff, and he says he can't really add anything to what I've already told you. Sorry about that. Now for the good news. Glenn finally got around to taking care of your request for the Cedar and Bluff thin sections, and the Travis County specimen. They will be put in the mail to you Monday. Hope we haven't held you up too long. Talk to you later.

Linda
