Tim,

Unfortunately, it was too late to change the address on your package by the time I got your message. I took the package down to shipping on Monday, so with luck you may get it on Friday. Sorry about that.

Now for the good news. When you mentioned Merrill studying old sections, a bell went off in my head and I realized we might have some old covered thin sections of Bluff and Cedar. I looked in our thin section archives, and lo and behold--4 Bluff 135's and 8 Cedar 240's. Are these of interest?

Linda
