

Silverton Tex July 3-39

Dear Mr. Moring

I have two Small ~~rocks~~  
Meteorites as I think they  
are ~~enough~~  $5\frac{3}{4}$  oz.  
a very thick crust on  
it When you come out  
this way come by & look  
them over. What about  
the piece off the large  
Meteorite I let you have  
I am getting anxious  
to see it.

Yours Respt  
R F Stevenson
