

Mr Oscar Manning
74 North St

Dear Sir

A few days
ago there was
found by a County
road worker, what
I feel pretty sure
is a meteorite.
it is irregular
in shape seems
to be of solid
iron, weight
approximately 100 lbs.

If you are
interested in
seeing some it

can be seen
at Forething Montagu
Co, 27 miles north
of Decatur on
F. M. road 455.
