October Third,

1925.

Mr. Amon Carter,

Ft. Worth, Texas.

Dear Mr. Carter:

I have just returned from my visit to Lubbock, and I want to extend to you my appreciation of your work and influence in connection with the Tech.

I am glad I had the opportunity of the little contact with you that I did have and seeing for myself the place which you have in the great picture which the Tech reflects.

Now that the college is a living, pulsing thing, animated by the lives of the boys and girls who are there, it is fine to know that a man like you has their welfare so much at heart. And it will be fine for you as the years go along to give them the things which I know are in your heart and mind, and it will bring you a rich reward of satisfaction which high endeavor always gives to those unselfishly engaged in a great enterprise.

Will you not be kind enough to remember me to Siliman Evans and tell him that he is inevitably tied in to the welfare of the Tech, and that I am looking forward to the day, and it may seem like a far off vision yet, when I shall sit with him in a wonderful auditorium on the Tech campus and see young Mr. Evans receive his degree and diploma.

With highest regards for you both, I am

Very cordially your friend,

LTC M..
