NEW YORK May 13, 1926

Amon G. Carter, President & Publisher,  
Fort Worth Record-Telegram,  
Fort Worth, Texas.

Dear Sir:

It was a very pleasant surprise to find on my desk this morning the Wednesday morning, May 12th, edition of the Fort Worth Record-Telegram.

This remarkable performance brought about by the development of the airplane demonstrates its great commercial possibilities and makes an accomplished fact of the dreams of many of the pioneers and the progressive citizens throughout the country who have given their strong support to this important development.

As a director of the National Air Transport, Inc., I have been informed that there has been found no more loyal cooperation than that given by the citizens of Fort Worth, and this is especially evidenced in the Fort Worth Record-Telegram.

Please accept my sincere thanks for your thought and courtesy in sending me by the first air mail plane a copy of your paper with its greetings and the assurance of the future of the air mail service which it conveys.

Yours very truly,

*Frowhodge Callaway*
