Dear Sir:

In searching for meteorites I recently had occasion to talk to Mrs. Roy D. Smith, now near O'Donnell, Texas.

Mrs. Smith told me of witnessing a great fire-ball some years ago, when living in your neighborhood, on an evening when you were visiting them. She said Mr. Wright Russell, now deceased, went to the site of the fall at the time.

Do you know of this event, or of any meteorites that any one actually recovered from it? Any recollection as to the date or any facts about any pieces of the meteorite now available would be appreciated.

Yours sincerely,

Oscar E. Monnic

Dear Sir:

I know nothing of this event
or of any meteorites.
