September 10, 1971

Mr. Oscar E. Monnig
29 Chelsea Drive
Fort Worth, Texas 76134

Dear Mr. Monnig:

This is to advise that I am sending, on approval, two meteorite specimens which are described on the enclosed invoice.

We were fortunate in being able to acquire a small specimen of the Gilgoi meteorite (found in 1889), and the complete specimen of nickel iron found at the Gallipoli Station in the Northern Territory of Australia in 1970. This latter specimen will be described in a future issue of METEORITICS and I shall be happy to send you a copy of the article, if you are not already a subscriber.

It is hoped that you will like the specimens and I look forward to your comments.

Very truly yours,

David New
