Fort Worth. 15.  
Texas.

Dear Sir,

The meteorite that I have for sale is actually from a place called Maltohohe, slightly West of Gibeon, and will probably come under them in category.

It is untouched, and I can send it to you packed in a small steel drum as a mineral specimen. (natural)

I would accept 2.50 dollars for it, here, and be able to ship it from Cape Town, through a firm named Parry, Leon and Hayhoe.

It is about 25 inches in diameter and more or less round with protruding knobs. Brownish-red in colour.

As it is the only one available here the rest is all administration owned, I do not want to focus much attention to it as the owner is of quite a suspicious character, and I want to keep the purchase price as is.

So let me know immediately if you are still interested. He says the weight is about 500. lbs but I do not think that it is as much as that. You can pay me in American dollars, to my bank in the States.

It will be the only one that will be shipped, that I can promise you, and if by any chance I may be able to get another, you will get first offer. Let me know your nearest port, and any other particulars.

Thankyou,

yours faithfully,  
S. Pieters
