

904 Booker St
Brownwood, Texas.
July 2, 1937.

Mr. Oscar Monning.

Fort Worth, Texas.

Dear Mr. Monning:- I notice
from an announcement in
Star Telegram that you lectured
in your City on "Stars that shoot."

I write this to ask if parts
of meteorites have any money
value. I know where there is
a piece of metal, about 30[#]
weight which is said to be
a piece of meteorite. It was
plowed up on road near Glen
Rose.

If this has any value, you likely

^{can}
tell me about how much it is
worth - I am in position to tell
you where it can be seen - This
metal is just a slab of metal
that looks like iron and those
who have seen it call it a meteor.

I would be glad to hear from
you if you can spare time to
write me -

Yours very truly,
Geo. R. L. English
