

1973 Sep. 11.

Mr. and Mrs. Bob Wilson,
Box 7
Glorieta, NM 87535

Dear Folks:

Hoping that you can stand another avalanche of literature, I enclose copies of a later article on the Glorieta finds. Some of this is a recap. of the material I sent you before, but there is a new description of the more recent find near you. I have done a little underlining and commenting in red. Do not trouble yourself with all the technical details unless such things intrigue you!

Ordinarily my wife and I make a trip to Santa Fe each summer and I hope that will come to pass next year and that I may then visit with you again. I hope in the meantime your venture prospers and advances-- and good health to you.

Sincerely,
