Mr. Glenn I Huss,
Denver, Colo. 80201

Dear Glenn:

The Glorieta iron was mailed to you from New York about last Tuesday, I hope. The man I got them from had been sick and out with the flu; hence the delay. Thank you for writing me you had received nothing.

I said "them" because he finally wrote he was including a small piece of another meteorite, which he seemd to think was an iron. However, I understood him over the phone to say Mezö-Madaras, which is a stone. Whatever it is, if it needs re-finishing, will you go ahead and do the job for me?

When you send this material on to me, you may include the shattercone samples I wanted to see from Charlevoix. These would be on approval if agreeable to you.

Also please send me a copy of Dr. Nininger's last book.

I did not go to New York this year as I ususally do in January and haven't done much here meteoritically (wouldn't Leonard have loved that word?!).

Sincerely,
