TEXAS CHRISTIAN UNIVERSITY

VOL. XLI

December 2, 1964

No. 14

## 'TIS THE SEASON TO BE....

Two days deep into December is high time to begin thinking and planning for the traditional Christmas party for the faculty. Scheduled two weeks from tonight (Dec. 16) at 6:30 p.m., the seated dinner will be held in the Student Center ballroom.

Reservations must be made by Dec. 12 by your calling Extension 262. The Faculty Woman's Club will NOT call to remind you, so why not make your plans and reservations today. It will be \$2 per person for an evening of fine food, excellent entertainment and festive fellowship.

Dress for the evening is formal or informal...the option is yours. For those who wish, it will be a "dressy dinner". Some folks are rushed by late classes or lab schedules, and more informal attire is equally as appropriate.

The program for the evening is being planned by a committee headed by Mrs. Howard Wible...and she has planned some dandies in the past. All in all, the evening promises to be a memorable and highly enjoyable one.

We'll furnish more details next week, but in the meantime, make those reservations!

## PLANS UNDERWAY FOR SUMMER INSTITUTE

Dr. M. E. Sadler was notified recently of the University being granted \$96,260 for a "Summer Institute in Science and Mathematics for Secondary School Teachers". To be directed by Dr. Dan Jarvis, the institute will be conducted according to National Science Foundation regulations.

The 1965 summer study will be the seventh such event on campus. Last year 100 high school teachers from seven states participated in the program, designed to allow the instructors to "enrich their teaching" by extending their basic knowledge, acquainting them with modern aspects of their subjects and emphasizing the interrelationship of science and math.

## FACULTY BULLETIN/2

### NEA REPRESENTATIVE TO VISIT

Jennings Flathers, field representative for the National Education Association, will visit the campus Dec. 9-10 to speak to the Student Education Assn. and lead discussions in education classes on professional matters. The life member of NEA and TSTA will address the Fort Worth-Tarrant County unit of Texas State Teachers Assn. at 7:30 p.m. on Dec. 10 in the Student Center Ballroom.

Faculty folks are welcome to attend the TSTA or the SEA session at 4 p.m. on Dec. 10. Drs. Leslie Evans and Porter Crow can furnish more information on this native Texan who became a permanent member of NEA's staff in 1960.

/// /// ///

### REASONS FOR PRIDE, TOO

Mixed with thanksgiving for multiplied blessings we enjoy as individuals and as a faculty family are countless reasons for pride in the accomplishments of the University and its citizenry.

It was with pride we announced that Dr. W. O. Milligan, our vice-chancellor for research and president of TCU's Research Foundation, had been selected as one of three outstanding chemists of national prominence from the Southwest to give the plenary lectures at the 20th Southwest Regional meeting of the American Chemical Society. To be held Thursday through Saturday in Shreveport, the meeting will also feature Dr. Albert Noyes, Jr. of the University of Texas and James P. Conkle of Brooks Air Force Base. Dr. Milligan, former chairman of the Southeastern Texas section of the ACS, received the society's regional award in 1956.

%%% %%% %%%

### NOTED SCIENTISTS ON CAMPUS

Proud, pleased and honored, too, we were at the recent visit of Dr. Hans Krebs, head of the Department of Biochemistry at Oxford University, England. A Nobel laureate like Dr. P. J. W. Debye of Cornell, who was a guest in September, Dr. Krebs is a leader in the field of research chemistry.

This visit brings to mind the presence of the distinguished Dr. Albert Szent-Gyorgyi earlier in the year. He discussed his work at the Marine Biological Laboratory in Woods Hole, Mass.

Other researchers brought to the campus include Dr. Karl Folkers, president of Stanford Research Institute of Menlo Park, Calif., and Dr. R. C. Fuson, formerly with the Department of Chemistry at Illinois University and now at the University of Nevada.

PIANO RECITAL SET MONDAY

Tully Moseley, assistant professor of music who has been in the Frog family since '59, will be presented in recital Monday at 8:15 p.m. in Ed Landreth.

The former Julliard student has been described by the Star-Telegram as "one of the foremost of Texas pianists"; by the Dallas Times-Herald as "dazzling attainments...exquisite dynamic control"; and as having a "vital sense of rhythm" by the New York Herald Tribune. You won't want to miss the opportunity to hear Tully as he plays perhaps the first Fort Worth performance of Stravinsky's own piano transcription of the Shrove-Tide Carnival from "Petrouckka".

( ) ( ) ( ) ( )

NATIONAL PLAYERS RETURN

The National Players, whose touring companies have made eight overseas trips under the auspices of the U.S. Department of Defense, will present "Hamlet" on Dec. 8 (Tuesday) as the fourth Select Series program of this season.

Regarded as Shakespeare's greatest work by many critics, "Hamlet" is being presented by this group for the first time in their 16-year history. Last year the National Players gave "Oedipus Rex" on campus.

Tickets will be \$2 at the door; curtain rises at 8 p.m. Many "outsiders" have expressed interest and plans to attend, so season ticket holders are urged to be present NOT later than 7:45 p.m. to be sure of seats. It's too long to stand!

LAST TO MAKE SENIOR :::::::::::

"THE PHENOMENON OF MAN"

Rev. John C. Walsh, O.P. of the University of Dallas, will discuss this topic Friday (Dec.4) in a Philosophy Club lecture. The discussion of Teilhard deChardin's work will be of interest to those concerned with philosophy, theology and science. Room 215, Student Center, at 7:30 p.m. for this no-charge program.

Now a teacher of philosophy at the UofD, Fr. Walsh was born in Los Angeles but spent most of his early life on the island of Cyprus. He attended school in Beirut, Lebanon and England. As one chiefly interested in the neurophysiology of sensory systems and in the philosophy of science, he will deal with the theological, scientific and philosophical aspects of Chardin's work in his lecture. Discussion and refreshments will follow the lecture which will be concluded by 8:30 p.m.

FACTS AND FICTION ABOUT THE GREEKS

"UT Greeks Maturing" was a recent headline that caught this writer's eye. Further reading provided this quote: "The social gentleman" development is still an interest of the fraternities and sororities tend to be "picayunish in selecting members," but the Alcade, UT alumni magazine, reports that the Greeks there have generally reached a level above hazing and Hell Week activities.

Noting that "the grade-point idol has just recently gained access to the trophy room," the author reveals that fraternity membership has increased from 17.5 to 22.3 per cent in the last 10 years. During that same period, sorority membership has dropped from 38.8 to 32.4 per cent.

On the TCU scene, 699 of the 2,093 undergraduate women enrolled are in sororities for a percentage of 33.3. Of 625 freshman women, 36.8 per cent pledged.

From a male enrollment of 2,730, the fraternities have garnered 512 active members for 18 per cent.

The Greek-letter organizations became a part of life of Frogland 10 years ago. Although undergraduate student enrollment has risen, membership by these persons has decreased.

Sororities claimed 40.65 per cent and fraternities 20.2 per cent in the Fall of 1956. Both had slipped a little by the following fall, counting 39.97 per cent for women and 20 per cent for men.

FIRST TO MAKE SENIOR THESIS

Dr. Joe E. Hodgkins has announced that John M. Deaton, senior from Fort Worth, is the first to make senior thesis in the chemistry department. Written in journal form, his thesis has been accepted for publication next year in the Texas Journal of Science. Deaton did the work, wrote the article and covering correspondence on research entitled "A Surface Reaction of Polymethylmethacrylate."

All would agree with Dr. Joe that this young man deserves a great deal of credit for this extraordinary effort.

FREE "PROFESSIONAL" CONCERT SUNDAY

When professionals- musicians, music teachers and graduate students-- blend their talents to complement one another's gifted abilities, the results must be outstanding! This is exactly what has happened in the forming of the Schola Cantorum by 32 persons under the direction of B. R. Henson. The group, composed of graduates and towns-people, will present their annual winter concert Sunday at 3 p.m. in Ed Landreth.

The free program will feature two works: "Die Weihnachtsgeschichte" (The Christmas Story) by Hugo Distler, which will be performed un-accompanied, and "Mass in G" by Schubert, accompanied by a string orchestra. Eleven soloists will be featured.

Dec. 15 - Security Life ( ) ( ) ( ) ( )

Dec. 17, 18 - U. S. Navy - All majors

WE HATE TO SEE YOU GO...

The news that Lucy Mae Jennings, assistant professor of office ad-ministration, will be leaving TCU at the end of the fall semester brings many expressions of regret at losing such a fine faculty member and friend. Her husband, a commercial photographer, has been transferred to Rochester, N.Y. and she will join him there in late January.

Recognized for her whole-hearted service to TCU, Mrs. Jennings has been a faculty member since 1958. Our best wishes will follow her to her new home and surroundings.

\*\*\* \*\*

PHYSICS COLLOQUIUM ON FRIDAY

Dr. Joseph Strecker, senior research scientist for General Dynamics, will be guest speaker at Friday's Physics Graduate Colloquium at 4:30 p.m. His subject will be "SU (3) Symmetry and w-φ Mixing." To be held in Room 151 of Winton-Scott Hall, the meeting will be preceded by a coffee period at 4 p.m. in Room 145.

//////////

FACULTY INVITED TO HEAR TELLER

Dr. Edward Teller, head of the University of California Radiation Laboratory, will speak Dec. 10 at a noon luncheon in the Grand Ball Room of Hotel Texas. His topic will be "The Education of the Modern Inventor". Reservations for the \$2 luncheon must be in by Dec.9 (week from today) by calling Dr. O. James Sowell, Ext.207, or Dr. W. O. Milligan, Ext. 343.

FACULTY BULLETIN/6

CAMPUS INTERVIEWS: The following companies will have representative on campus during the weeks of Dec.7th and 14th to interview our graduating seniors:

Dec. 7 - Gulf Oil Corp.- Geology, Accounting. Business Administration majors

Dec. 7-11 - U. S. Marine Corps - All majors

Dec. 8 - Dow Chemical Co. - Business, Liberal Arts and Chemistry majors

Dec. 9 - Metropolitan Life Insurance Co. - Business and Liberal Arts majors

Dec. 10 - University of Virginia Graduate School- Business and Liberal Arts majors

Dec. 11 - Northwestern Mutual Life Insur.Co. - Business and Liberal Arts majors

Dec. 15 - Security Life & Accident Co. - Business and Liberal Arts

Dec. 17, 18 -U. S. Navy - All majors

OFFICIAL ABSENCES

be

The following students will/absent from classes ALL DAY, THURSDAY and FRIDAY, DECEMBER 3 and 4, in order to participate in the opera MERRYMOUNT in San Antonio:

Anderson, Corinne	Green, Laura Linda	Quiros, Quinlan
Angel, Beverly	Hartwig, Yvonne	Riley, Susan
Arndt, Gerri	Karam, Karen	Roberts, Leannah
Bloom, Carol	Kassing, Gayle	Salling, Sammye
Cook, Annell	Kerlin, Pat	Seyburn, Teddy
Cole, Jean	Lincoln, Karen	Uhrig, Judy
Dorflinger, Gail	Lyon, Glennda	Vankovich, Linda Ann
Fleischman, Carol	Mackinder, Marilyn	Vondereau, Becky
Flores, Sylvia	Oldt, JoAnn	Whitford, Pat
Gaston, Marilyn	Pettigrew, Sandra	Younts, Shane Ann

The following students participated in a Psychology Club field trip and were absent from classes after 9:00 a.m. WEDNESDAY, NOV. 18th:

Tina Aybar	Dale Ferris	Judy Murphy
John Bilbrey	Robert Holt	Eloise Reynolds
Sylvia Bracewell	Pamela Knox	Mickey Stocks
Mayre Lee Crotts	Liz LaGrone	Rachel Stocks
Richard Culbertson	Bobbie Lyons	Pete Van Bever
Lothat D. Dale	G. Carolyn Lynch	Berry Wall
Pat Detenbeck	David Mindel	Ken Wheaton
Steve Early	Glen Morrison	

OFFICIAL ABSENCES (Continued)

ALL MEMBERS of the Band were absent from campus after 11 a.m., FRIDAY, NOVEMBER 20, in order to perform at LaPorte for their football game that night. (For individual names, check with office of Vice-Chancellor for Student Life, if necessary)

The following student will be absent from campus ALL DAY, DECEMBER 3,4,5 to attend the National Interfraternity Conference:

Steve Early

FACTS 'N FICTION ABOUT FACULTY FOLKS

Geologists ED HEUER and ART EHLMANN had a taste of "winter in Florida" recently when they attended the Geological Society of America meet in Miami Beach. Ed served as a committeeman on the American Stratigraphic Commission, while Art gave a paper on "Clay Mineralogy of Selected Puerto Rican Rivers". Sounds like a busy trip!

A captive audience of females might well interest some folks, but WARREN AGEE did a "double feature" Nov. 24 when he spoke to the Fort Worth chapter of Certified Professional Secretaries at the Fort Worth Club. Immediately following that talk, he walked next door to address the Metropolitan Business and Professional Women's Club on adult education. We heard that the Evening College dean was going to toss a coin to decide which group's dinner guest to be... or just dine twice!!!

"Thanksgiving--1964" was EARL WALDROP's topic last week when he spoke to the Waco Rotary Club. To date no report on the vice-chancellor's deer-hunting exploits, but it's a sure thing that the outdoorsman has gotten in a few shots.

Does the pace ever slacken for JIM MOUDY? Can't be sure, but he has been one of the speakers at the 69th annual meeting of the Southern Association of Colleges and Schools in Louisville, Ky. More than 1,750 folks from 11 states were attending the Nov. 29-Dec. 3 session.

CLYDE FOLTZ showed all the signs of paternal pride last week when his oldest daughter, Susan, was a nominee at Paschal, where she's a junior, for the title of sweetheart at that school's sports follies. And just think, he has three other charmers at home!

BEN FROCTER acted as chief consultant last week at a Social Science workshop at Hill Junior College, Hillsboro. The session was attended by folks from junior colleges in Central Texas.

MORE FACTS 'N FICTION

Perhaps CHANCELLOR SADLER will try his skill as a huntsman at bow-and-arrow hunting of javelinas, a current sports "derby" event in Arizona. Seems he got his deer and elk the first day or so out on a recent New Mexico trip.

Congratulations to ANN LANE, Harris College's assistant professor in psychiatric nursing, on her appointment to a Southern Region Education Board project in teaching psychiatric nursing in baccalaureate programs. The three-year project is funded by a National Institute of Health Grant.

JACK SUGGS has just received from Clarendon Press proof sheets of the sample chapter of Luke being prepared by the International Greek New Testament Project. The project's aim is to assemble all the evidence bearing on the text of the Greek New Testament. Jack is chairman of the patristics section.

Another fella on a busman's holiday will be TULLY MOSELEY who is scheduled to judge a piano recital at Tarleton State College on Dec. 13. In the Spring he'll judge the Amarillo Symphony auditions for piano soloist.

TROY CRENSHAW feels sure there should be some prize for getting his reservations in first for the faculty Christmas dinner. The English prof made his Dec. 16th plans on Nov. 25.

JOHN SWANGO presented a talk on South Vietnam recently to MU Chapter of Phi Eta National Sorority here. It was complete with slides, maps and a specially-prepared brochure of "facts and figgers" on that country's rugged history. (He did a tour of duty there just prior to coming to TCU).

In relating the doings of ARLENE SOLLENBERGER at a recent National Association of Teachers of Singing meeting, we omitted the fact that the student she took to Austin, Cheryl Brumbaugh, won first place in her division in which six states were represented. Cheryl won \$30 and a \$200 scholarship for next summer to Inspiration Point at Eureka Springs, Ark. It's a compliment, too, to the fine instruction she's had.

Rarin' to get back into harness, AMOS MELTON is feeling much better these days. In fact, he is "encouraging" the doctor to send him back to work. The PR director says he'll be back in a week or so... for brief periods anyway. We miss that ready smile 'round about, too!

BEN PROCTER acted as chief consultant last week at a Social Science workshop at Hill Junior College, Hillsboro. The session was attended by folks from junior colleges in Central Texas.
