## "AH, WILDERNESS" TO OPEN FRIDAY

The six-performance run of the only comedy written by Eugene O'Neill, "Ah, Wilderness", opens Friday night in Little Theatre. A major effort by Theatre Arts, the show will be repeated on Saturday night and Wednesday-thru-Saturday nights next week. Hope everyone will have an opportunity to catch a performance.

Incidentally, the Theatre Arts folks were delighted that so many faculty members and their families attended the presentations of "The Boyfriend" at Casa Manana. The third night crowd, we hear, soared to 1,200. For "Ah, Wilderness", free tickets will again be available to full-time faculty members and their immediate families. Just remember that you MUST make reservations and pick up tickets in advance. Just call Ext. 243 for full info.

## OHENDALSKI JOINS P.R. STAFF

John Ohendalski, award-winning newsman and assistant city ed of The Fort Worth Press, joined the staff of P.R. Division on a full-time basis last week. With the tentative and temporary title of "Staff Writer", he will be primarily concerned with publicizing our work in the sciences and research. He's gone to work with high enthusiasm.

A native Texan (Bremond), John holds his B.J. degree from UofT, joined The Press in 1953, was cited in 1964 by SW District of American College P.R. Assn. for his stories on education, wrote a top series on TCU's research program last Fall that attracted wide attention. A seasoned and energetic professional, he'll be of great help in our program. His wife, Latryl Layton, is also a journalism veteran. They're a welcome addition to our campus family.

SCIENCE FAIR IN COLISEUM

The annual regional Science Fair, at which some 400 crack high school students display their work, opens Friday night in Daniel-Meyer Coliseum. As you'll recall, Dr. Willis Hewatt has been director of the event since its inception and this year, Dr. Leigh Secrest of our Research Foundation will give the opening address Friday evening at 8 o'clock. Award winners will be announced the same evening. On Saturday from 9 a.m. to 10 p.m. and on Sunday from 1 to 5 p.m., the many exhibits will be open to the viewing public. All our people are especially invited--and if you have a young son or daughter interested in any phase of science, take them along.

BUDGET OUTCLIMBS TUITION RATE

In answer to some querries--and intrigued by such statements as "tuition has gone up 150% in two years"--we were tempted to make a quick study of enrollment, budget and charges going back to the 1951-1952 school year. For it was with the start of Fall semester that session that our tuition took a first upward tilt--moving from \$10 to \$12 per semester hour.

The records also show that same school year, we enrolled 5,931 for all periods (Summer, Fall, Spring), and that our approved budget was \$2,700,000. For the 1965-66 school year (all periods), enrollment was 9,829 and, starting with Fall semester, tuition will be \$30 per S.H. and total budget \$10,645,826. As best we can figger (and we'll NEVER win any Fellowships for calculating), that seems to indicate that in a 15-year period the budget has soared approximately 400%, tuition 300% and enrollment 65%.

Incidentally, tuition raises have gone like this: 1951 from \$10 to \$12 per S.H.; 1954 to \$13; 1957 to \$15; 1959 to \$17; 1961 to \$20; 1964 to \$25 (but with all other academic fees such as library, languages, art, etc. abolished); and 1966 to \$30. And once more, it might be worthwhile to point out that at schools like TCU (which get no income from taxes of any kind), the tuition paid by its students covers less than 75% of their EDUCATIONAL costs. We've seen figgers ranging from 55% to 75% in this matter. One thing is for certain sure. If TCU didn't have a very fine annual return from its endowed funds and if it were not stoutly supported by churches, foundations and individuals with fairly substantial gifts, tuition charges would have to go up 25% to 30% just to break even.

SENATOR TOWER TO SPEAK FRIDAY

John Tower, Texas' junior senator who is running for re-election this year, speaks Friday afternoon at 3 o'clock in SC Ballroom. The event is sponsored by Forums Committee and the public is invited. Senator Tower, a Republican, holds B.A. degree from Southwestern in Georgetown and M.S. from SMU. He's been a faculty member (political science), currently serves on the Armed Services and Banking-Currency Committees of the Senate, recently spent 27 days in South Vietnam, Thailand and the Philippines. Incidentally, his most prominent Democratic opponent this year, Attorney Gen. Waggoner Carr, was to have spoken on campus the week the Supreme Court overturned the poll tax law. He had to cancel but has been invited at another date by Forums Committee which has been very active and effective of late.

A TEACHER "NEEDS HIS STUDENTS"

Dr. Paul Tillich, famed theologian and member of the Divinity School faculty of UofChicago, died Oct. 22. An entire issue of Criterion, the handsomely printed publication of the Divinity School, was devoted to his life and work. Our own Paul Wassenich, speaking in chapel two weeks ago, repeated these challenging quotes:

"The real secret of Paul Tillich's appeal for students lies in the fact that he needed them. Without his students, he was incomplete. They were not something to be endured, the teaching of whom was a necessary obligation of an academic contract. He lived in and thru students. On them he tested out his ideas. To them he offered his insights and experience. He brought to students an absolute honesty and candor. There was no question sacrosanct or reserved. Their questions were his, and his questions quickly became theirs. Though he handled his lectures with a sure touch, as one who spoke from profound experience, never did Tillich condescend or cajole. He dealt honestly and openly with his students. They helped to form his thought."

"It was because Tillich needed students for his own completion that they accepted him so gladly. They were wanted and needed not to build a man's ego but to participate in a process of learning that can only be complete where teacher and student genuinely need each other and contribute to each other. Teaching was for him a process of love, and so he received love in return."

TOP SCIENTIST HERE SATURDAY

Dr. Walter A. Rosenblith of MIT, a top biologist, speaks to a meeting of the N. Texas Biological Society in Winton-Scott Saturday. He's sponsored by our Research Foundation.

REPEAT SHOWINGS ON "FANTASTICKS"

The new Scott Memorial Theatre (a wing of the Ft. Worth Art Center) will be the scene of four repeat performances of "The Fantasticks" by our Theatre Arts Division. The dates are March 28-29, April 4-5. For this one, ALL TICKETS will be \$3 each and can be secured only at the Scott Theatre. The popular musical was first produced last November by our people.

NEW GENERAL INFO CATALOG OUT

In record time, just slightly more than one week after the Spring meeting of our Trustees, the revised edition of General Information Catalog came from the presses last Thursday. They're available in Printing & Mailing Room. Many changes have been made, of course. Page 3 is devoted to Dr. James Moudy's first message "From the Chancellor's Desk". The NEW statement of Philosophy and Objectives appears on pages 6-7. There were, of course, major changes in Officers of Administration, the full-time faculty list, administrative and general staff. There's a new statement on "Absence From Class" policy (placing more responsibility on faculty members). All scholarship, grants-in-aid, other financial statements have been brought up-to-date. As always, we imagine some MISTAKES have been made. If you spot one, please make a note and let P.R. Office know. An "active file" is kept on this catalog thru the year.

ENROLLMENT FOR YEAR SETS RECORD

For the 1965-66 school year (Summer session, Fall and Spring Semesters), 9,829 separate students registered for one or more courses at TCU, according to the annual study completed some time ago by Registrar Calvin Cumbie. That's a 2.3% increase over 1964-65 and an all-time record. The old mark was 9,683 in 1963-64.

Most significant aspect of the report is the fact that the number of Day School Undergrads (mostly full-timers) was UP 9% for the year. All five Undergrad Divisions had increases with Fine Arts' 20% jump (to 576 students) leading the way. Harris was up 17.6% (to 313); Education climbed 13.8% (to 938); AddRan was up 7.7% (to 2,854); Business increased 1.1% (to 994). Grad School, which has been the fastest growing division as the doctoral programs came in, increased only 1.8% this time (to 1,433). Evening College dropped 8% (to 2,551) and Brite was down 23.4% (to 170).

Interesting sidelight: Only 59% of our enrollment came from Tarrant County. It was 65% last year and 73.6% in 1953-54. Some 30% came from other Texas counties and 11% from outside the State.

FINE SCHOLARSHIP IN RADIO-TV-FILM

A \$500 scholarship for next shool year has been approved by the Assn. of Broadcast Executives of Texas (ABET) for one of our students in Radio-TV-Film division, Dr. George Tade reports. Congrats to Dr. R.C. Norris on this fine recognition of his work in this area.

NEW SPECIAL COURSE INTERESTING

"Marketing the Defense Product", a new special course that will run for 14 successive Monday nights, is off to a flying start, according to Tom Palmer, Director of Evening Courses. 'Tis the first time a semester-long course has been focused completely on the needs of the space-defense industries of our area on a non-credit basis. Too, it is the first time a course has been built entirely on study and discussion of actual cases from industry and is an attempt to develop skills and insights rather than to store knowledge. Paying \$150 each, 26 management men are taking part from such firms as Bell, Collins Radio, GD/FW, Jet Research Center, L-T-V, Menasco, Varo Corp.(Garland). Daniel L. Dudas is coordinating.

QUOTES AND NOTES ON CAMPUS FOLKS

JACK COGDILL discussed "Interesting Your Child in Drama and Theatre" on the Monnig Junior High PTA Study Program recently.

Campus was saddened last week to learn of the death of GLENN ROUTT'S father in Washington. He was 85.

Remember DARRELL K. WOLFE? The director of Bethany Press, to whom we awarded an honorary Litt. D. in 1959, has resigned to become general manager of Croft Ed Services, a division of Vision, Inc., in New London, Conn. Several times he taught a course in Brite's Summer program and helped many faculty folks publish books. He'll be missed.

JEROME MOORE was in Houston last weekend to attend the first conference organized by the Committee on Latin American Studies at the UofHouston. He attended the lectures and took part in the discussions by special invitation.

The sympathy of all TCUers went to IVA SHEPHERD COX of Library staff over the death of her son recently.

L. MOFFITT CECIL has been informed that his manuscript "Poe's Arabesque" has been accepted for publication in Comparative Literature. It is a quarterly journal published by the UofOregon at Eugene with the cooperation of the Comparative Literature Section, Modern Language Assn. of America. Congrats Moffitt.

Mighty fine to have HUNTER ENIS and DON JACKSON attend the Faculty Luncheon last Wednesday. The young football coaches do add to the appearance of the group!

EARL WALDROP, VC External Affairs, has been named vice-chairman for UF Campaign next Fall. He'll have the division that includes public employees, education and the military. A big job.

ALEX HOFFMAN of Computer Center and his colleagues at Grad Research Center of the SW have received an additional grant of \$63,400 from NSF for their project, "IQSY Magnetohydrodynamic Data Analysis". Actually, as JOHN OHENDALSKI pointed out in one of his first science stories, it is a study of "The Year of the Quiet Sun" and what it does to magnetism on earth. Congrats--to BOTH Alex and John!

MORE NOTES ON FOLKS OF NOTE

Speaking of grants, CHANCELLOR MOUDY has been notified by NSF of an award for \$62,300 for the purchase of a nuclear magnetic resonance spectrometer. BILL SMITH, chairman of Chemistry, is the project director.

HERB LaGRONE, Dean of Education, will be one of the featured speakers at the state convention of the Texas Assn. for Student Teaching in Denton this weekend. The other will be Dr. Dwight W. Allen of Stanford. TCU and NTSU are hosting the event. Also taking part in the program will be KEITH TURKETT, ALLIENE HARDER, PORTER CROW, BEN STRICKLAND. Other faculty folks will attend.

Schedule correction: Last week, we reported that TULLY MOSELEY was to give a piano recital in Ed Landreth the evening of March 29. It was so listed in the original calendar for the year but, it now develops, has been changed to May 18 at 3 o'clock. So please make this correction.

KEITH TURKETT is a busy man. Recently, he spoke twice to the District VIII Texas State Teachers Assn. session in Longview; then flew to San Francisco for a two-day meeting of the National Assn. for Supervision and Curriculum Development. The 1967 national meeting of this group will be held in Dallas, Keith reports.

Congrats to KEN THOMPSON of Aerospace Studies (AF ROTC) on his promotion to major.

The fish were biting like crazy last week at Possum Kingdom--until M. E. SADLER and L. C. WHITE got there. Well, there's always Zuider Zee.

PAT HARDWICK has been re-appointed part-time clinical instructor in Maternal & Child Nursing for Harris College for the 1966-67 school year.

IRA SCHANTZ, that fine tenor, will be busy during the Easter period. He sang at First Presbyterian Church in Midland last Sunday and will have the role of the Evangelist in Bach's "Passion According to St. John" at St. Luke's Methodist, Oklahoma City, next Sunday.

CAROLYN RANKIN served as judge of piano, vocal solo and ensemble contests of the Interscholastic League event in Odessa recently.

PAUL C. YOUNG, that indefatigable young man, spoke on "Present Status of Hypnosis" on the "Prof Series" last week, lectured on "Psychology of Humor" for the Omnibus Series (for GW/FW Management Club), worked on his talk "Whither the Psyche?" to be given at the Louisiana Psychological Assn. meeting in New Orleans next weekend.
