SUMMER COMMENCEMENT ALL SET

Two weeks from Friday night (on Aug. 26), our Summer Session comes to a close and we'll award some 300 degrees in Commencement ceremonies in Daniel-Meyer Coliseum. Starting time will be 7:30 p.m. As it did in June, the faculty in full regalia will lead the processional and Marshal George Fowler has again urged everyone to assemble as early as possible after 7 o'clock. Chancellor James Moudy will lead the platform party and preside during the program. Dr. David L. Stitt, a former TCU undergrad and president of the Austin Presbyterian Theological Seminary for more than two decades, will give the Commencement address. He's to receive an Honorary Degree as is Rev. Ray Bristol of Dallas, a grad of TCU and Brite Divinity School.

Indications are that for the second straight calendar year we'll award more than 1,000 earned degrees. Last year (1965) it was 1068. This June's graduating class of 754 was an all-time record for Spring. It also appears that we may have the largest group of Ph. D. winners since we started offering the highest degree. Those closest to the situation believe that 11 candidates will make the grade--including our first in Chemistry. We wish them all luck.

DEAN RESIGNS--ERE HE REPORTS

That explosion you heard on campus Aug. 1 came from the office of Dr. Howard Wible, Dean of Students. That morning, Mr. Stanley R. Hicks of Oklahoma, newly-appointed Dean of Men, was to report for full-time duty. The plan was for him to work with Jewell Wallace, the former DofM, learning the ropes, buildings, etc. and etc. Instead of Mr. Hicks came a letter of "resignation" which said, in part, "I know I'm leaving you in something of a hole".

He put it rather mildly, we think. Having interviewed and discussed the post with a number of other people, Dr. Wible is now left without a key man in his office--with the start of Fall semester only a few weeks away. He's burning up the telephone lines--and would probably like to singe Mr. Hicks a bit.

FACULTY BULLETIN/2

FACULTY BULLETIN/3

SCHEDULE OF GRAD CLASSES ENCLOSED

SPEAKERS BOOKLET READY

So that everyone will have the exact and official info, we are enclosing with this Bulletin the listing of Grad Classes for this Fall, both Day School and Evening College. Associate Dean Sandy Wall urges everyone to check over the folder and perhaps keep it handy to answer any questions from students.

ity and staff members who have indicated they'll be available for speaking engagements. to civic clubs, church groups, educational groups, professional and business organ-

"THANKS" FOR HELP ON INSTITUTE

Dan Jarvis, Director of this year's Summer Institute in Science and Mathematics, reports that another fine event came to a successful ending July 22. A three-page evaluation of the program, completed by the participants, indicated that all but a few were most pleased with the work accomplished. Some 100 high school teachers took part.

As something of an indication of just how many University divisions are involved in such an Institute, Dan sent "special thanks" to workers in the offices of the Registrar, Dean of Students, Security, Grad School, University Store, Public Relations, Printing and Mailing, Post Office, Business Office and Jaunita Owens of Student Center. "Without the patience and concern of these folks, the Institute had no chance of functioning," Dan wrote.

to be a bit embarrassed. So if you possibly can be in the City that night and can take p professional and program, PLEASE call Dr. Fowler immediately at Ext. 427. Do it now!

ENROLLMENT FIGURE UP--AGAIN

Registration for the second six weeks of Summer Session (with a few names to be added for late-starting Grad classes) was 1,897, according to Associate Registrar Joe Enochs. That's up 158 over the same period last year. The 1,362 undergrads in Day Schools was an increase of 117. Grad School listed 284 (up 20), Brite had 56 (off 6) and E.C. 195 (up 27).

latest figgers show that 1,470 new students (1154 freshmen, 316 transfers) have been app 00 00 00 00 enrollment, This compares with 1,575 (1273 freshmen and 302 transfers) at the same period last year. All of which is about as expected. Our 20% tuition increase (to \$30 per semester hour) goes into effect and last Fall's record increase of 28.4% in freshmen isn't likely to be duplicated for some time.

SPEAKERS BOOKLET READY

Within the next few weeks, Public Relations will be sending out our annual "Speakers List and Special Programs for 1966-1967". As prepared by Jim Lehman's office, it contains a listing (alphabetically and by subjects) of our faculty and staff members who have indicated they'll be available for speaking engagements. They will go to civic clubs, church groups, educational groups, professional and business organizations of the North Texas area.

Once more, it is being carefully pointed out in the publication that all arrangements for speakers, entertainment groups or other programs from TCU must be made with the people involved. The University does NOT have a policy of assigning speakers--but hopes all of our people who can will accept invitations.

URGENT: FACULTY NEEDED FOR COMMENCEMENT

As of Monday, Marshall George Fowler reported that only 22 faculty folks had indicated to him they would take part in Commencement the evening of Aug. 26. That's a new, all-time LOW for the University and unless something happens, we're all going to be a bit embarrassed. So if you possibly can be in the City that night and can take part in the processional and program, PLEASE call Dr. Fowler immediately at Ext. 427. Do it now!

SLIGHT DECREASE IN NEW STUDENTS SEEN

As of Aug. 3, Director of Admissions Anna Byrd Wallace predicted that our freshman class this Fall will show a decrease, the number of transfer students will increase--and that overall the total number of new students will be down slightly from last year. Her latest figures show that 1,470 new students (1154 freshmen, 316 transfers) have been approved for enrollment, This compares with 1,575 (1273 freshmen and 302 transfers) at the same period last year. All of which is about as expected. Our 20% tuition increase (to \$30 per semester hour) goes into effect and last Fall's record increase of 28.4% in freshmen isn't likely to be duplicated for some time.

ADDITIONS TO STAFF, FACULTY CONTINUE

Appointments to faculty and staff continue as we make ready for Fall semester. Among the latest announcements: Don C. Nix (B.A. from Texas Tech and LL.B. from SMU) as Instructor in Business Law. He spent 1964-65 working in London.

Tomislav H. Landikusic (B.A. from East Carolina College and M.A. from Indiana) has been named chief catalog librarian. Born in Yugoslavia, he attended UofZagreb, worked for the Library of Congress, is a member of the U.S. Army Reserve.

Nicholas M. Rose (B.B.A. and M.B.A. from TCU), joins our Development Division in September as a "development officer". Young "Nick" (he's 35) has been director of corporate relations at SMU since last Winer. He'll work under Dr. O. James Sowell in planning and conducting various campaigns and programs.

DEAN BRIGHAM of Development (Living Endowment) spoke at services of the Magnolia Ave. Christian Church here in early August.

FACULTY BULLETIN/5

OFFICIAL ABSENCES:

The following students in Home Economics classes were absent from campus ALL DAY, WEDNESDAY, JULY 27, for a field trip to the Dallas Trade Mart and again on AUGUST 4 for another trip to Dallas:

Pat Taylor	Jean Pearson	Lynda Kirkley
Barbara Breenan	Hazel Jones	Amelia Evinger
Mrs. Lourdes Hall	Cissy Laird	Joan Bullock
Pam Brazzil	Beverly Moore	Sally Bradshaw
Beth Jordon	Carol Cearley	Carol Stanley
Elizabeth Wright	Lois Beeman	Vicky Liggitt
Cheryl Warren	Anne Walling	Jeanie Garrett
Becky Gardner	Donna Brewster	Janet Sullivan

/// /// ///

NOTES & QUOTES IN HOT WEATHER

MALCOLM ARNOULT has been named Acting Chairman of the Dept. of Psychology after CY LAGRONE asked to be relieved because of family illness. Malcolm has already assumed much of the responsibility and will carry on until a permanent chairman is named.

JEROME KERBY of Business is mighty proud of son Jerry and with reason. The young man who holds B.S. and M.S. from TCU has been awarded a grad study grant from the Virginia Inst. of Marine Science for the next school year. He and his wife will move to Gloucester Point, Va., soon.

"Two and Three Choice Probability Learning in Fish" is the title of an article by SELBY EVANS and Doctoral Candidate Robert Marrone in the July 25 issue of Psychonomic Science.

SAUL SELLS, Director of Inst. of Behavioral Research, spoke on "Psychological Implications of Cultural Differences" to the teachers enrolled in our course for the Educationally Deprived in early August. Saul continues to be about the busiest guy on campus--or off campus for that matter.

DR. ELMER HENSON, Dean of Brite, came back from a trip to Acapulco, Mexico, with a tale of catching a 9-foot, 130-pound sailfish. Preachers DON'T fib about fish--or do they? Anyhoo, sounds like he had a fine trip.

DEAN BRIGHAM of Development (Living Endowment) spoke at services of the Magnolia Ave. Christian Church here in early August.

MORE HOT WEATHER NOTES

M/Sgt. GEORGE HARP of our Army ROTC retired after a ceremony at Camp Wolters July 29. He was awarded the Commendation Medal by Lt. Col. DONALD THOMPSON, the PMS, the same day.

Five-year-olds will be admitted to our preparatory ballet program this school year, FERNANDO SCHAFFENBURG has announced. Wife NANCY assumed direction of the prep group last Fall.

MYRA HUFFHINES of Home Ec and our Nursery School, was a guest speaker at a state-wide session of teachers in Dallas in early August. Her subject: "Child Care Aids".

JIM CORDER has received word that his article, "Rhetoric and Meaning in Religio Laici", has been accepted for printing in Publications of the Modern Language Assn. Recently, he spoke to the English Institute at NTSU on "Rhetorical Theory and Practical Literary Analysis".

BILL SMITH's contribution on quantitative analysis by nuclear magnetic resonance spectroscopy has just been published in the second edition of "The Encyclopedia of Chemistry". Fine work, Bill.

Combining business with a short vacation, Dr. and Mrs. JAMES MOUDY returned to campus Monday after a trip to the Midwest and East. They drove and reported the roads not too crowded as a rule.

The work of rebuilding the ceramics lab (the wooden building at the entrance of Worth Hills area) is moving forward rapidly. Two weeks ago a short, hot fire damaged the roof and some walls but the damage is not as bad as first thought, according to Vice-Chancellor L. C. WHITE. The lab should be back in operation well before the start of Fall classes.

Plans for the second Van Cliburn International Quadrennial Piano Competition, to be held on campus starting Sept. 26, are now complete. JIM LEHMAN has even started work on the official program. A recent report showed 75 of the world's finest young artists from 21 foreign lands were eligible. There will be some withdrawals, of course. First prize is \$10,000.

JOHN OHENDALSKI of P.R. is vacationing in the Far West with his wife and parents. He had hoped to go salmon fishing in Oregon.

RAY CAMP of the Business Office, who suffered that severe heart attack in mid-July, is home from the hospital. He lives with his mother at 3016 Cockrell. Reports on his recovery continue to be good but as always in such cases, it will take time. Meanwhile, Ray has been listed as a member in good standing in the campus Busted Heart Club which now has eight members.
