

SMITHSONIAN INSTITUTION  
UNITED STATES NATIONAL MUSEUM  
WASHINGTON 25, D. C.

August 4, 1964

Mr. Oscar Monnig  
29 Chelsea Drive  
Fort Worth, Texas

Dear Mr. Monnig:

In response to your note on the bottom of our letter of July 17, 1964 we are enclosing Ward's pamphlet on "Embedding in Bio-Plastic".

I hope this is of some help to you. However, we have not had occasion to remove any of this bio-plastic so do not have experience along these lines. If you will write to Ward's, perhaps they may be able to supply this information.

Sincerely yours,

Grover C. Moreland  
Museum Specialist  
Department of Mineral Sciences
