Postmaster,  
Etowah, Tenn.

Dear Sir:

I am interested in astronomy + make a special study of meteorites. Not long ago I was told of a large meteorite said to be at Etowah, but I cannot get any details except that it has been known since 1906 or prior.

If you can give me any information as to who has this, whether it is iron or stone, whether it was seen to fall, + any other facts about it, I will be very grateful to you.

Should you know nothing about this matter, perhaps you can refer this letter to some one who does have some information + will be kind enough to answer.

Yours sincerely,

Oscar Monnig.

Dear Sir,

I have taken probably too much time to reply to your letter but have been making a searching investigation and can not get any trace of this meteorite however am led to believe it must be some other place.
