

1975 May 25.

Mr. Glenn I Huss  
Denver, Colorado.

DEar Glenn:

I am asking a triple favor of you:

1. I am amiling you three little pieces of meteorites. The largest is a slice I cut off a piece of Travis County, Texas, yeras ago. The flat surface needs grinding down just a little and refinishing. Can you do this fr me?

*stand +  
will be  
sent to  
George  
Lunsford  
at Leander*

2. The second piece is a small cut piece off an iron. I think the former owner, now deceased, got it from H. O. Stockwell, and it may have been a piece of the Kiowa County pallasites that this former owner had found and given to Stockwell, according to a story I have. Please re-polish and etch this and give me your opinion on its identify.

*hester  
Canyon  
Diddle*

3. The third piece is clearly from a stony meteorite, not too old, indeed, fairly fresh. I don't ask you to do anything to it except examine it and give me a guess as to its identity. The same man I spoke of had it and apparently or possibly got it from Stockwell.

*Johnson,  
Kansas  
RS?*

From these same people I have an old stony meteorite of about 10 lbs. from Kansas and I'll write you more about it in a few days, when I get time. I don't mean to be nysterious about it but have to write down my notes and detail before I can write accurately about it.

Of course I expect to pay you for your trou le in these respects, and there is no hurry.

Sincerely,
