FRANK H. WATT, Master Archeologist
President Emeritus CTAS

Oscar E. Monnig
H. Worth, Tex, 76134

Dear Mr. Monnig:-

Re your letter of Feb. 11, 1973, Subject
Meteorites. I have no information
about the so-called Hawkins meteorite.
My relations with Prof Hawkins over
several years was unfortunate as I
found him secretive and unethical
when it came to Indian artifacts.

He was merely a collector, not an
archeologist, the type of man who
very gladly goes with you on trips
but never offered to return the favor.
So, its no surprise no one knows
anything about his collections.

Personally I have never found a
meteorite in or near a Campate
other than some the size of marbles.
I would like to retain your slide for
my records -

Thanks for your letter

Frank H. Watt
