

Box 433, Holliday, Tex.  
March 16, 1964

Dear Mr. Monnig:

After finding  
that opening in the canyon at  
the road, I know we were in  
the right one.

And after going west of pond  
& coming back to it from the  
Nest, it looked better.

I couldn't understand not  
being able to see the peak or  
pointed hill at the Pipeline  
But it was probably in sight  
around the next bend.

We nearly worked down the  
high hill back East and  
I approached the pond from  
the west

I would like to have taken  
you to the high hill & then  
worked East. But I just  
couldn't make the hike.  
And then I could have shown  
you plenty of paraffin  
But you know the lay-  
out well enough to make  
it if you ever desire to  
do so.

I don't think the walk  
hurt me any.

Sincerely  
Jackson
