

Llano River Irrigation & Milling Co
Lw.

Junction, Texas.
September 8, 1938.

Mr. Oscar E. Monnig,
Fort worth, Texas.

Dear Mr. Monnig:

I trust that you will pardon my delay in writing you. I appreciated your letter confirming our agreement as to the fragment of the meteorite, and your frank discussion of the matter when you were here, and I will give you 'first chance' in the event of other offers.

I have found some other specimens that may be worth while. I am not quite sure that I have found the one of which I told you, and have not had an opportunity to locate all of my collection of rock.

I have been thinking over the different localities in which I may have found specimens, and by the 'process of elimination', I may be able to locate the place where I found the specimen you have.

Have talked with a few of the older residents who remember the meteorite of 1917, and they confirm my statement to you.

I will keep a look-out for anything that might be of interest to you, and will be glad to see you when you come this way.

Yours sincerely,

C. W. Hutchinson
