June 24, 1942.

Mr. Oscar E. Monnig,
Fort worth, Texas.

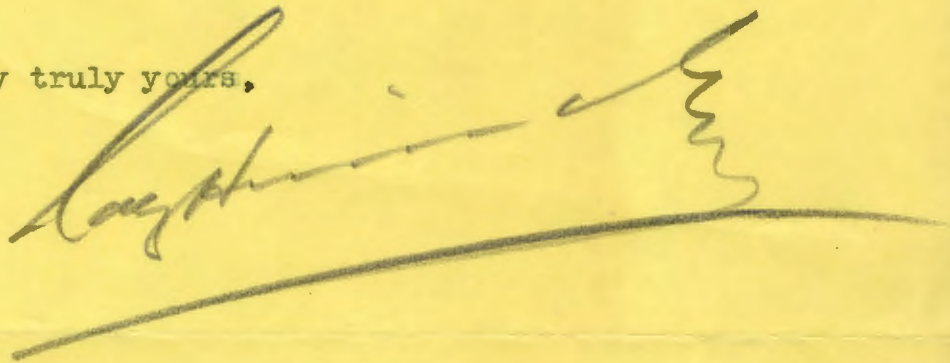

Dear Sir:-

I am sending by parcel post insured two fragments from the meteorite White Crust. The smaller fragment was ground down on emery dust and finally polished on very fine dust. It shows the metallic portions very nicely. Weighs 13 grams. Polished wet slight rust on crust.

The larger fragment 35 of the hand collection was run down on some surfaces with an emery wheel, Polished slightly. It shows the crust.

If the fragments do not meet with your wishes kindly return same.

Very truly yours,

A handwritten signature in dark ink, appearing to read "Carl G. Hinrich", is written over a horizontal line. The signature is fluid and cursive, with a prominent flourish at the end.
