Mr. Oscar E. Monnig  
1010 Morningside Drive  
Fort Worth, Texas

Dear Mr. Monnig:

I want to apologize for not answering your letter of February 18 sooner. Mother has been very ill and away from home for three months and our household is somewhat upset.

We do not know which of our many specimens which Father collected is the meteorite. I thought I would recognize it, but the two pieces I picked out as possible meteorites do not seem to be meteorites, according to a neighbor to has some knowledge on these matters, although she is not sure.

Do you know of anyone in this part of the country who could identify it? I suppose there is someone at Rollins College, Winter Park, only four miles away, whom we might consult, but if you have any member of interested person near who might identify it, we will be glad to have him look over our specimens.

I am writing my brother in the north to know if he wants the meteorite or if he has any objection to giving or perhaps loaning it for your collection.

Sincerely yours,

Nellie B. Ramsdell
