

1957, June 6.

Kaufman County Abstract Co.,
Kaufman, Texas.

Attn. Mr. H. A. Dunson

Dear Sir:

When I was in Kaufman about twomonths ago talking to you a little about a meteorite found 4 or 5 miles west of there in 1892, you referred me to some people who turned out to be relatives of a J. H. Hill. The man I asked about, who got the meteorite, was a J. J. Hill. I have since learned his daughter, Mrs. Will Feagin, is still living in Kaufman, and I have written her but received no response. If you know and should see Mrs. Feagin, put in a good word for me, will you?

J. J. Hill sold the meteorite to one F. R. Ramsdell of Lampasas, Texas. I would like to locate the exact tract where it was found, if possible, and wonder if your records would show whether any land was once owned by either of these some 4 to 5 miles west of Kaufman.

A stamped envelope is enclosed for your kind response.

Sincerely,
