

WEATHERLY'S VARIETY  
205 W. MULBERRY  
KAUFMAN, TEXAS

May 30, 1958

Mr. Oscar Monnig  
Monnig Dry Goods Co.,  
Fort Worth, Texas.

Dear Oscar:

Well, I think we have finally found something definite about the meteor which was supposed to have fallen in the vicinity of Kaufman.

An elderly man, Mr. J. E. Carter, City Secretary for Kaufman, and who is about 76 years of age, saw this meteor fall when he was a small boy. He said he was coming out from some low lands in company with someone else when they saw the bright light. As to the location, Mr. Carter says he can place it within at least one mile. It is now the Winn Ranch. However, Mr. Carter said that so many years had elapsed, the ground has been plowed many times, etc. that he doubts there are any fragments left. Anyway, you know more about that phase.

Mr. Carter also knew Mr. Hill. In case you would care to write him, address your letter to Mr. J. E. Carter, City Secretary, Kaufman, Texas. Incidentally, I gave him one of your booklets.
