

Bx 67

La Villa, Texas,
June 13, 1957

Mr. Oscar E. Monnig,
P.O. Box 2200
Ft. Worth, I, Texas.

Dear M^R. Monnig: Your letter came in today's mail. Sorry that I failed to tell you that I sent the pictures to you to keep. They were some that I sent to the papers and which were returned to me. I just failed to mark off the instructions on the back.

Glad that you were please with the newspapers. I feel even though no magazines used my story that I accomplished something-You see I had a personal letter from every one that I sent the story too and they expressed regret in not being able to use it and told me why. Mr. Brad Smith did not get that far with two of the same magazines when he sent in some real good colored photographs.

One magazine even told me that they- at one time-had considered doing a story on your life - in regard to meteorites. Wish I was nearer and I might attempt to do this. This editor happened to be a college classmate of mine .

Should you present the paper at the Meteoritical Society in Calif. would you be so kind as to furnish me with a copy of this paper. I am making a scrapbook of all data pertaining to the meteorite. Would it be asking too much of a favor to ask you for a snapshot of yourself to include in my book. I had hoped to get one here but did not get to do this.

So sorry that your city and surrounding section has been so hard hit by the severe storms- we have had only two high winds- some scattered hail but very little damage to our crops. Cotton is doing extremely well.

Yours Sincerely, Mrs. Ethel Mae Wade
