David New

P O Box 268
Anacortes, Washington 98221

April 25, 1990

Dear Mr. New,

Thank you very much for the information on the WARDEN Meteorite. Andrew Graham had already forwarded the information to me and I have Warden included in the next BULLETIN. Nevertheless, I like to have also the original information, especially the map of the find site, which I did not have before.

Thank you also for your FAX with the information on the new C5 chondrite MARALINGA. The manuscript for the next Bulletin is already finished and will appear in the September issue of Meteoritics. So I will enclose Maralinga in the Bulletin after this.

Yours truly

Frank Wlotzka
