The Uganda Society,  
Private Bag  
Kampala  
Uganda, East Africa

Attention: Mr. M. M. Wallis  
Secretary

Gentlemen:

About a year ago, you kindly sent me of your journal that I wanted, but at that time there was some mixup about the remittance and none ever reached you.

Several months ago, I sent to you by International Post Office Money Order a sum supposed to be the equivalent to 20 shillings, and I trust that this has now reached you.

It was my understanding from your kind letter of 13th July, 1951, that copies of your Journal were 10 shillings each. I intended by my remittance to pay for the copy I had received, plus one additional copy which I now ask you for.

Will you kindly send me your Uganda Journal, Vol. 8, the number containing pages 35-36? If this should be out of print, and no longer available, will you kindly send me that number of Vol. 10, which contains a letter of some meteorites by W. J. Eggeling.

If you could give me the mailing addresses of the Mr. R. O. Roberts, who wrote the article entitled "Meteorites in Uganda" in the March, 1947 copy of your journal, of which I got a copy, as well as the addresses of any other individuals in your society who are interested in this subject, I would appreciate it. We collect these objects in Texas and adjoining states, and have done considerable work on them, and thought that perhaps we could enter into some exchange arrangements with any of your members, who have specimens available.

Yours most sincerely,

OEM:el

Oscar E. Monnig
