

Lawton, Oklahoma,
February 1, 1940.

Mr. Oscar Monnig,
312 West Leuda Street,
Fort Worth, Texas.

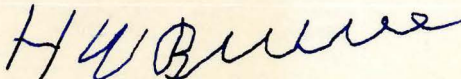

Dear Mr. Monnig:

Am writing you in regard to a metallic piece I gave to you to test on the 31st day of December, 1939, which you agreed to return to me. To date I have received no word from you. Did you make the test and what were the results of same?

As I believe you have had ample time to make the test, would appreciate if you would return the metal to me, or if you desire to keep it, I am asking \$300.00 a pound for same.

Would appreciate an early reply.

Very truly yours,

H. W. Bruce

P.S. As soon as the weather permits, I am going out to look for more meteoric iron, as I have information as to the place where some fell.
