Hello Dr. Mayne

I don't think we have worked together before but I have done some trading/selling in the past with Art and Theresa.

I'm checking in with you to see if TCU has a need for an individual Mount Dooling, Australia iron meteorite. I did not see it listed in your catalog and TCU always has something I could use so maybe a trade?

515 grams

If you see Art, please tell him I said hello. Missed him in Tucson this year
