Dear Mr. Monnig,

I recently obtained ten specimens of the very rare Murchison meteorite which you are undoubtedly familiar with, so it would be unnecessary for me to advertise it further. I'm enclosing a list of the specimens and their prices. If you are interested, just send a check covering the cost plus postage. Satisfaction is, of course, guaranteed. All the specimens are in excellent condition having either all or most of their fusion crust, and they have not been handled except by the finder and myself.

I hope I may hear from you, and until then, I remain;

Very sincerely,

Jim Mull
